

Phifer
SheerWeave[®]
BRAND FABRIC

Now With

 **Microban**[®]
antimicrobial product protection

STAY COOL. LIVE CLEAN.

Phifer uniquely combines the performance of SheerWeave[®] sun control fabrics with MICROBAN[®] antimicrobial technology to provide continuous product protection against stain and odor-causing bacteria, mold and mildew.

- Microban antimicrobial protection works continuously for the lifetime of the shade to inhibit the growth of stain and odor-causing bacteria, mold and mildew.
- Phifer SheerWeave fabrics are the only shade fabrics in the world to include Microban protection.
- SheerWeave fabrics infused with Microban antimicrobial technology are ideal for any commercial or residential environment where microbes are a concern, including:
 - Healthcare
 - Hospitality
 - Home and Office
 - Schools and Institutions

The following SheerWeave fabrics contain Microban antimicrobial protection:

- Style 1000
- Style 2000/2100
- Style 2390/2360/2410/2500
- Style 2701/2703/2705/2710
